PROJECT MANAGEMENT AND EQUIPMENT INTEGRATION SERVICES

“You are only as good as your last project...”

We provide project management and equipment integration services for all type of projects in the can making industry including site recommendation and layout, equipment specifications and purchasing, installation management, training, and ongoing technical support.

Our integration services requires strong technology through our strategic partnerships for conveying systems technology, electrical systems technology, computerized system tools, and specialized support systems.

ENGINEERING SERVICES AND CONSULTING

“There are options for independent can makers—we can provide the solutions.”

Palmer-Tech Services can provide designs for new can lines, production increase, can size changes, cost reduction programs, down gauging, and conveying improvements. We provide cost effective solutions for any sized project, and can provide concept-to-completion solutions for any sized project.

CAN MAKING EQUIPMENT AND SERVICES

“Total production solutions.”

PTS offers a range of high-speed DWI can and end making equipment for aluminum and steel can beverage production. Our equipment is made in the USA and Europe for state-of-the-art production requirements. We offer service technicians for machinery rebuilds, maintenance, training, and operational support.

PROCUREMENT MANAGEMENT

“When you need it right and fast.”

PTS specializes in procurement support for *Fortune 500* and independent companies throughout Central and South America, Europe, Asia-Pacific, and the Gulf region. We provide all procurement services including sourcing, consolidation, inspection, export packaging, and documentation and shipping. We provide machinery parts, tooling, commercial spares, and materials for manufacturing can and ends.

CAN MAKING PARTS AND TOOLING

“We source from the companies that actually make the part and make it better than the OEM.”

We provide new, rebuilt and offer repairing services. We have 15 years experience in the can making machinery business supplying after-market parts for all types of equipment including *Alfons Haar, Belvac Production Machinery, Reynolds, Rutherford, OKL Can Lines, Standun, and Stolle Machinery* among others. *One year warranty for material and workmanship.*

ABOUT PALMER-TECH

Palmer-Tech Services (PTS)—an Illinois corporation—has over 15 years experience in 2-piece can making, tooling and machinery industries for our clients worldwide. PTS supports over 60 satisfied clients worldwide—we offer a wide range of products and services from complete turn-key projects to spare parts procurement.

Palmer-Tech Services, Inc. is the largest can making equipment procurement services company in the industry and was founded in 1996 by Michael Palmer BSME who had previously worked 9 years for *Coors Technologies* developing new technologies for the can making industry.

PTS is a member of the *Illinois Chamber of Commerce*, *International Metal Decorators Association*, and founding member of the *Latin American Can Makers Association*.

PTS has managed and supported numerous projects worldwide, the highlights include *Samwha*, Korea (1997), *Domingez Continental*, Venezuela (1998), *Ball Metal* (Centrotampa, Brazil (2003), *Crown Cork*, Malaysia (2005), *Guangzhou MC Packaging*, China (2007), and *Grupo Zapata*, Mexico (2007).

Current customers are located in countries such as Australia, Brazil, China, Colombia, Indonesia, Mexico, New Zealand, Panama, the Phillipines, Poland, Singapore, Taiwan, UAE, USA, Venezuela, and Vietnam.

Located in Chicago with offices in Sydney and Venezuela.
